Magic® xpi for Oracle JD Edwards Integration

Simple, Optimized Integration

Magic xpi Integration Platform's native JD Edwards EnterpriseOne and JD Edwards World connectors let you extend the value of your ERP by connecting data and business processes across CRM and other business systems. Magic's code-free, visual, drag and drop approach enables you to complete business-critical integration projects quickly, enjoy ease of maintenance, and benefit from a high return on investment. Having achieved Oracle Validated Integration for JD Edwards, Magic xpi provides added piece of mind.

Multiple Ways to Get Ahead

Use Magic xpi for JD Edwards connectors to:

Improve the customer experience by connecting e-Commerce, CRM, support, shipping, social media and more.

Speed processes and increase efficiencies by automatically synchronizing Work Orders, Bills of Materials, Return Merchandise Authorizations and more, across systems.

Synchronize master data, such as account names, locations and product catalogues, between JD Edwards EnterpriseOne or JD Edwards World and other systems.

Manage intercompany transactions, hybrid ERP strategies or ERP migrations, complete with audit trail.

Enable mobile workforce solutions for Order Entry, Proof-of-Delivery, Field Service apps, and more.

Magic Makes Everyone Happy

As an Oracle Platinum Partner, Magic has everything you need to make sure your business processes run the way your users want. IT, LoB and Management stakeholders benefit from:

- Fast time-to-market
- Easy and cost-effective maintenance
- One skill set for all integration needs
- Real-time data for accurate information
- Flexible connectivity to different databases, file types and data formats
- Robust In-Memory architecture supports the most demanding applications
- Business process automation for less than the cost of ETL

- **Enterprise-grade** including In-Memory Computing, built-in clustering and failover, powerful security and encryption tools, and SOA compliant
- **Hybrid platform** supports any combination of cloud & on-premise integrations

A few of our JD Edwards Integration Customers

Magic xpi Integration Platform is known for its excellent JD Edwards connector, but what impressed me was its ability to automate discovery and handling of APIs that are completely unknown to it.

This is a great tool for API integration to 3rd party software.”

Kenneth Hess, CIO, Pacific Steel and Recycling

Your Digital Transformation Partner

In today's disposable era, experience is a rare and valuable commodity that is good to have on your side. When you choose Magic for your integration provider, you get:

- 30+ years of experience with enterprise applications
- Benefits of a global team
- Solutions that succeed where others don't
- An easy path to enterprise mobility with our single-stack solution
- Full range of professional services to meet your needs
