Transparent Logon

Login anywhere
anytime

Your login to Active Directory removes the need to login to
Oracle JDEdwards EnterpriseOne...

What is Transparent Logon?

Steltix Transparent Logon uses a cross-reference database that correlates Active Directory users with one or more JD Edwards EnterpriseOne users.

Steltix Transparent Logon is cost effective and installed within the hour and does not require any software changes to either JD Edwards EnterpriseOne, Active Directory or any other hardware or software component.
